	Currently studying				

- Communication skills** Excellent communication skills with a focus on innovative solutions and formats. I have an extensive experience in translating heavy science to a very large public through mass media: clarity and storytelling are key to make complex report and data accessible to large public. Human stories and data always need to relate to maximize impact. Multichannel is key.
- Organisational / managerial skills** I have gained organisational experience in the newsroom, in a deadline-driven environment, where speed and quality have to go along. I believe in measurable results obtained in a professional and enjoyable environment. Organisational goals have the same weight as communication results.
- Job-related skills** In my career I have been dealing with multiple level of stakeholder; from top-government member to scientists, from businessman to policy maker. Therefore I have obtained strong social and relational skills and an ability to interact at any level, in any situation.
- Computer skills** Besides Office software and a general knowledge of computers, I have good knowledge of movie editing software (Final Cut) and infographic tool (Adobe Suite). I also have been trained in the use of GIS software and other mapmaking tools, mostly ESRI software. Published number of info-graphic, mental map design and maps.
- Publications** Atlante Geopolitico dell'Acqua (Hoepli, 2019), Water Grabbing (Emi, 2018); What is the Circular Economy (Ed. Ambiente, ita and eng., 2016); Il mondo dopo Parigi. Paris Agreement visto dall'Italia: prospettive, criticità e opportunità (ed. Ambiente, 2016).
- Conferences and presentation** I have done over 100 presentation and conferences, from UNFCCC side events to universities classes and seminars to business associations events. Topics: climate change impact, water-security and circular economy.
- Honours and awards** Fellowship at Middlebury College (Vermont): Environmental Journalism (2010/2011); Premio Giornalista per la Terra (2015); European Journalism Center – IDR winner (2013, 2014, 2015, 2016); Google -Digital News Innovation award (2017).
