### ABOUT ME

I am a master student of Environmental and Land Planning Engineering at PoliMi in the branch of soil defense and natural risk prevention. On 27/09/2023 I got a bachelor degree in Environmental Engineering at PoliMi.

I'm currently looking for the opportunity to know different points of view about my line of studies and hopefully to make some work-related experiences. I consider myself a responsible, adaptable person and I am able to work in team.

---

**Cars:** B 24/04/2021 –  
20/07/2027

## COMMUNICATION AND INTERPERSONAL SKILLS

---

### Communication and team working

#### Communicative skills

I can easily interact in a team through active listening and contribution in a problem solving process. Thanks to the knowledge of the technical language and the experiences developed in the university projects I am not afraid to speak in front of other people and to accept also negative feedbacks useful to improve my competences and skills.

## ORGANISATIONAL SKILLS

---

### Time management

During my experience at university I learnt to manage the time in order to reach both personal and academic goals and it is not a problem to work under pressure.

## HOBBIES AND INTERESTS

---

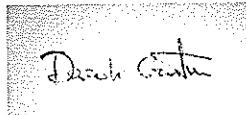

### Sport and nature

I am a sport and nature lover since running and alpinism are my favourite hobbies: in fact I am an high level runner (even if not professional) with 4 years experience in distance running, especially in half marathon and 10km races where I set my personal bests at 1:10:44 (HM) and 32:58 (10K). I also love mountaineering no matter if it is for hiking or climbing and in 2023 I attended an alpinism course at the CAI SEM in Milan.
