skills and interests

I practiced fencing (foil) at a high competitive level until two years ago. In 2019, I was ranked 12th in the Italian under20 rankings and participated, as part of the national team, in several stages of the U20 World Cup as Udine and London. With the team from my club in Milan (CDS Mangiarotti), I have participated multiple times in the Italian Serie A1 championships and won a Category A2 National Championship.

I am passionate about art and architecture and have been a member of the FAI (Fondo Ambiente Italiano).

I consider myself a responsible, hard-working person, highly inclined to teamwork, open to project discussions, and always willing to take on new challenges.
