SYNTHETIC PROFILE

EDUCATION > Born in 1972, Valeria Fedeli was trained as an Architect, graduating in 1996 at Politecnico di Milano with laude. She obtained her Ph.D. in Planning and Public Policies at IUAV, Venice, in 2001. Her Ph.D. thesis was awarded the "Giovanni Ferraro" Prize for the best doctoral dissertation in Spatial Planning (2002). She holds an Advanced Master Degree in Planning at the "Scuola di Specializzazione in Pianificazione Territoriale e Ambientale", Politecnico di Milano (2002).

ACADEMIC CAREER > Since 2001, she started her career at Politecnico di Milano, based on her multi-disciplinary interests in policy analysis, urban studies and geography, planning and governance studies. She was a post-doc research fellow with yearly research bursaries (tr. *Assegni di Ricerca*) between 2001 and 2007 at the Department of Architecture and Planning. In 2003 she was awarded a post-doc research fellowship at Maison des Sciences de l'Homme, Paris, France, exploring institutional innovation and decentralization policies in France. In 2007 she became Researcher and Assistant professor, with a full-time permanent position at DiAP (Dipartimento di Architettura e Pianificazione), Politecnico di Milano. She was appointed Honorary Researcher at the "Intelligent urbanization Co-Creation Center for High-Density Regions" in 2013, based in Shanghai at Tongji University. She has been visiting scholar and professor at the Institut d'Urbanisme de Paris in 2014, supported by a research contract. In 2015 (after achieving the national habilitation for Associate professorship - ASN - in 2014), she became Associate Professor at DASTU (Dipartimento di Architettura e Studi Urbani), Politecnico di Milano. She achieved the national habilitation for full professorship in 2018. Since 2017 she is the vice-coordinator of the Ph.D. Program in Urban Planning, Design and Policy at Politecnico di Milano. Since 2022 she is Full professor in Planning.

RESEARCH INTERESTS > Her research interests focus on the interaction between spatial transformation processes and social, political, and institutional change dynamics. In particular, she aims to contribute to the scientific debate on how the current restructuring of the "urban" is rewriting the territory-sovereignty- citizenship nexus, producing new "urban questions" and asking for new policy and governance approaches. More specifically, she explores how processes of urban regionalization challenge consolidated spatial imaginaries, planning approaches, and governance frameworks. From this general perspective, she has been working on:

- a. **strategic planning and innovation in urban policies:** exploring the limits and failures of traditional statutory planning and contributing to the international debate about "strategic planning" as an approach able to develop more efficient and legitimate forms of planning for contemporary cities and societies (in a dialogue with the work of Albrechts, Balducci, Healey, et al., among others). More recently, she became interested in Transition Studies (Loorbach, among others) as both a theory and policy design approach to deal with the contemporary transition challenges. Based also on her participation in strategic planning processes in Italy, especially in the Milan Urban region context, she published several journal articles and book chapters. She co-edited a book on the Italian context and co-authored an international one on this topic.
- b. **Metropolitan governance, coordination modes, and the emergence of new spatial actors:** developing specific research focuses on metropolitan governance and coordination modes to deal with the wicked problem in planning large urban regions. She is interested in the emergence of new spatial actors and coalitions, which are restructuring powers and action arenas (see in particular her research on the role of universities as urban and spatial actors, but also her more recent focus on public utilities and the new forms of cyber-capital). She is also interested in both the analysis and design of institutional innovations, particularly in "soft spaces" that foster and support coordination and integration of actors, resources, and policies. She has published several national and international articles on this topic, mainly studying the Italian and the French contexts and several international cases in depth.
- c. **Processes of regional urbanization, new urban questions:** developing a specific interest and attention to significant processes of territorial transformation that affect Italian urban and metropolitan areas, as well as European. In particular, she is interested in contributing to the international debate on the nature of the urbanization processes in the contemporary world,

dealing with new urban theory (post-metropolis and regional urbanization, Soja, 2011, planetary urbanization, Brenner, 2003; suburbanization, Keil 2012). Based on the results achieved within competitive national research projects, she co-edited two national books on this topic and several research articles and book chapters. More recently, she has been the principal investigator of two ESPON Targeted Analysis projects (ESPON IMAGINE and ESPON MISTA). She is currently co-editing an ESPON book on the changing relationship between the city and the manufacturing sector and one for Edward Elgar related to "Spatial inequalities and wellbeing".

- d. **Urban policies and the EU dimension:** developing specific attention to the European integration project: on the one hand, she has focussed on the governance dimension, exploring the problematic institutional construction of the European Union as a crucial terrain of innovation also in the spatial policy domain. On the other, she has developed a specific interest in the role of cities in the construction of the European Union and the role assigned to cities and urban challenges in the EU Agenda and integration project. In particular, she is interested in contributing to the international scholarly debate on the "Europeanisation" of the urban policy field. At the same time, her interests include the international discussion on the new urban agenda and SDGs: she developed special attention to the Italian context within the framework of Urban@it, a national think tank on urban policies, which she contributed to found and establish, as Member of the Scientific Committee. On these topics, she has written several journal articles, recently co-edited a book on National Urban Policies in Europe, and co-authored two issues of Urban@it yearly report.
- e. **Expert/Tacit knowledge in urban policies/spatial planning:** developing a "post-euclidean" approach to planning (Friedmann, 1994) and the production of "usable knowledge" (Lindblom, 1978) she is interested in exploring the interaction between expert knowledge and lay and tacit knowledge in spatial planning, policy design, governance processes. More recently, she has been developing this interest within the DATA@TER transdisciplinary nucleus. DATA@ter is an interdisciplinary research group founded at Politecnico di Milano, working on how new data generated by digital technologies are powerfully restructuring the field of policy design. A first application regarded using big and open data to study and support informal mobility policies in the Global South: she is currently co-editing a book on this topic for Springer. She has written several book chapters on this topic, interacting with theories challenging planning theory and practices.

RESEARCH ACTIVITIES > She developed the above-mentioned research interests within nationally and internationally funded research projects, as well as consultancy projects promoted by local public administrations. Since 2001, as a Researcher, she has taken part, often with roles of team coordination in national and international research projects: Innovation in urban and territorial policies (COFIN/2002 "Urban and territorial policies between Government and Governance", national coordinator prof. P.L. Crosta, IUAV); Spatial change and innovations in urban and territorial governance/ policies (PRIN/2005, "The territories of the changing cities: innovations in descriptions and policies", national coordinator prof. A. Balducci, Politecnico di Milano); urban change and policy challenges in urban regions in Italy (PRIN/2010-11 "Post-metropolitan territories as emergent forms of urban space: the challenges of sustainability, livability and governance", national coordinator prof.

A. Balducci, Politecnico di Milano); the production of usable knowledge in policy design and planning (EU FP6, STREP "Governance for Sustainability G-FORS", dedicated to exploring the relationship between governance forms and the production of knowledge in the field of policies for sustainability; EU FP7, PERIPHERIA and EU FP7, MY NEIGHBOURHOOD, MY CITY, dedicated to exploring the logic of co-design and Living Lab in planning processes; Erasmus + Thinking Smart, dedicated to investigating the role of High Education Institutions in regional smart specialization strategies.

Since 2015, as Associate Professor, she has been Principal investigator and coordinator of several competitive research projects, among which: ESPON IMAGINE, dedicated to the role of the High-Speed corridors as regionalization machines and generating new spatial imaginaries along the Milano-Bologna region (2019-2020) and ESPON MISTA, dedicated to studying the hyper-industrial or postindustrial city in European metropolitan areas (2020-2021). She has been a research member in ESPON DIGISER, Digital Innovation in Governance and Public Service Provision, and the Horizon 2020 Project MeSOC, Measuring the Social dimension of culture. She has recently been awarded the PRIN 2022 National Interest Research project “Plastic or Elastic, the spatialities of the post-covid world”, as Principal investigator (Italian Ministry of University).

During the years, she has developed a strong interaction between theory and practice and a consistent part of her research activities have been developed for institutional local, regional and national actors. In this perspective she has also developed specific outreach attitudes.

TEACHING ACTIVITIES > She has been Lecturer in Planning at Politecnico di Milano. Since 2001, she has taught Urban Analysis at the Bachelor Level in Planning (in Italian and English), with both thematic courses and Workshops. Since 2013, she is also teaching European Urban Policies at the Master level (Urban Planning and Policy Design), currently Strategic Planning and Urban Policies. She is a Member of the Board of the Urban Planning, Design and Policy Ph.D. program. She has been co-responsible for several years of the Research methodology Module – Writing a bibliographic Essay, collaborating with several colleagues. She is currently a supervisor of Ph.D., Master, and Bachelor theses. She was awarded a Jean Monnet Course “Eu Regional and Urban Policy” at Master Level, which she taught in 2015-2018. She has been visiting professor at the Institut d’Urbanisme de Paris in 2014, and invited lecturer in several universities in Europe.

INTERNATIONAL ACTIVITIES > Since 2001, she has activated, throughout several international networking activities and participating in international scientific associations’ conferences, a series of collaboration and exchanges with colleagues all over Europe. She has been the national representative of Italy at the Committee of Representatives of AESOP - Association of European Schools of Planning; she is a Member of the Jury for the AESOP Excellence in Teaching Prize since 2014 and is now Appointed Member of the AESOP Working Group on the Curriculum of Planning Education. She has been President of EURA (European Urban Research Association) between 2016 and 2021 and a member of the EURA Governing Board since 2010; she was Chair of the Local organizing committee of XI Eura Conference in 2008 in Milan and member of the International Scientific Committee of the CITY FUTURES Conference in Paris in June 2014, Dublin 2018 and Chair of the Organising Committee of the EURA Conference in 2021 in Milan. She is a Member of the Scientific Coordination Committee of the Programme Urban Futures (LABEX-PRES, Université Paris-Est). In 2018, she was appointed Member of the Working Group on Metropolitan Planning of the German Academy for spatial planning (ARL, Hannover). She is currently member of the joint committee EURA-UAA (Urban Affair Association) for the organization of the International conference to be held in New York 2024.

INSTITUTIONAL ROLES AND MAIN RESPONSIBILITIES > In 2013-2016, she served as a member of the Executive Board of the Department of Architecture and Urban Studies. During these years, she has developed, among other activities, a series of initiatives to support the Department in selecting and supporting the development of strategic research topics and organizing research activities. Since 2013, she has been a member of the task force supporting the President of the Bachelor and Master programs in Planning at Politecnico di Milano in managing activities. She is Erasmus coordinator for several Erasmus exchange programs in the field of urban studies and planning. She is currently vice-coordinator of the Ph.D. program and has been a Member of the Coordination Committee of the MIUR Departments of Excellence project “Fragilità Territoriali” 2017-2022 ad DASTU, a special project promoted by the Ministry of University to promote excellence in research. She is currently the Coordinator of the new MIUR Departments of Excellence project “Fragilità Territoriali” 2023-2027 ad DASTU and in charge of the Design of CRAFT- Competence Center for Antifragile Territories. She is also member of the Board of AISRE, Associazione Italiana Scienze Regionali.

Since 2016	Member of Laboratorio Interdipartimentale di ricerca URBANSOPE LAB (Dipartimento di Ingegneria Industriale, Dipartimento di Architettura e Studi Urbani, Dipartimento di Matematica, Dipartimento di Design, Dipartimento di Elettronica, Informazione e Bioingegneria) del Politecnico di Milano. The laboratory aims to reflect on the relationship between knowledge and action in public decision-making processes.
Since 2013	Member of the team supporting the Coordinator of the Bachelor and Master programs in Planning at POLITECNICO DI MILANO in the promotional activities of both study programs within secondary level students. She organized in 2014 a cycle of public seminars at Urban Center of Milan, under the title "Nella città per la città", dedicated to communicating the main contents and methodologies of teaching in the bachelor and master courses in Planning at Politecnico di Milano. With the technical support of experts, she also developed the new website of the Bachelor and Master course www.urbanistica.dastu.polimi.it. She promoted the Passion in Action course proposal "I mestieri dell'urbanistica," dedicated to developing a dialogue between students and the job market, collaborating with the Project URBPLOT, launched by several Bachelor courses in Planning in Italy. She participates every year in the promotional activities of the Bachelor course, taking part in the OPEN DAY presentation, the Summer Schools, and at the selection jury for new applications. Finally, she takes part in the yearly activities related to "Rapporto di Riesame", as a member of the "Commissione di Riesame" for the Bachelor Course "Urbanistica. Città, Ambiente e Paesaggio". Member of the Graduation Jury at Bachelor and Master Level, and she has been the tutor of several theses since 2000 and for curricular traineeships in both Bachelor and Master level.

2010 currently	Member of the Ph.D. Program in Urban Planning, Design and Policy at Politecnico di Milano. Since then, she has been the supervisor of 7 Ph.D. Students, 2 of which with an inter- doctoral bursary, extraordinarily funded by the Athenaeum.
Since 2008	Erasmus Coordinator for teaching staff exchange and students mobility with the following partner universities: University of the West of England, Bristol, UK (prof. M. Deveraux); Oxford Brooks University, Oxford, UK (prof. T. Marshall); Cardiff School of Planning, Cardiff, UK (prof. F., Sartorio); Université III Lumière Lyon, FR (prof. R. Verhage); Institut d'urbanisme de Paris (Université Paris-Est Créteil; prof. C. Lelevrier); Institut Français d'Urbanism (Université de Marne-la-Vallée; prof. C. Lefevre); Dortmund Technische Universitat (prof. K. Zimmermann). In 2018 she activated two new EU Erasmus exchanges with the University of Malmoe and University of Ljubljana; in 2020, she activated new international agreements between Universidade Federal de Goiás/Brazil - Politecnico di Milano e Universidade Federal do Rio de Janeiro/Brazil-Politecnico di Milano for academic and scientific cooperation through teaching, research and/or extension activities.

5. INVOLVEMENT IN HIGH-QUALIFICATION NATIONAL/INTERNATIONAL RESEARCH INSTITUTIONS/SCIENTIFIC ASSOCIATIONS

2023	Member of the Board of AISRE; Associazione Italian Scienze Regionali
2017-2021	President of EURA, the European Urban Research Association: founded in 1997, the association aims at promoting engaged urban research and outreach, linking theory and practices. Valeria Fedeli was elected President by the General Assembly in Warsaw, 2017 and served until July 2021: she worked at re-launching the association with a new organization of the Board, a new website and newsletter, promoting a reinforced relationship with the Urban Affairs Association (USA based) by organizing the joint conference in Dublin in 2019 and establishing the agreement for the next one to be held in New York in 2023. 2022 EURA conference will be organized in Milan, at Politecnico di Milano and she will be Chair of the Conference.
2021	Appointed Member of the AESOP Working Group on the Curriculum of Planning Education, which supports one of the main objectives of AESOP, supporting the development of teaching in the field of planning.
2020	Appointed Member of the Jury for the Giovanni Ferraro Prize for the Best National dissertation in Planning, as representative of DASTU, Politecnico di Milano. She was serving for the 2021 edition.
Since 2015	Member of the Scientific committee of Urban@it, Centro Nazionale di Ricerche per le politiche urbane; she has been among the co-founders of Urban@it, supporting its constitution process (https://www.urbanit.it/chi-siamo/cariche-sociali/) Co-coordinator of the working group UNIVERSITÀ E CITTÀ: UN LABORATORIO PERMANENTE DI POLICY TRANSFER composed by Valeria Fedeli (DASTU Polimi), C. Perrone (DIDA Unifi) e V. Borghi (DSDE Unibo). Member of the Working Group and responsible for the Institutional agreement and Istat-Urban@it together with C. Perrone (DIDA Unifi) and A. Ferrara, M. P. Sorvillo, S. Lipizzi (ISTAT), W. Vitali (Urban@it) (2015-currently), founded to develop a new definition of the “urban” in the Italian context.

	Since 2021, supporting the President of the Scientific Committee in the interaction with EUROCITIES to promote a European network of think-tanks in the field of urban policy Since 2021, she is a Member of the Scientific Board of the Project “Puglia Universitaria”, scientific responsible prof. N. Martinelli.
2016-2019	Appointed member of the Working Group Planning and Governing the Metropolis, founded by ARL - Academy for Spatial Research and Planning (ARL®), Hannover, Germany. ARL, founded in 1946, is an Institute of research for spatial sciences and aims at promoting the cooperation between theory and practices, facilitating Knowledge transfer. ARL is a member of the Leibniz Association and is funded by the Land and the Federal State. The Working Group was initiated in 2016, chaired by prof. K. Zimmermann and was composed, among others by J. Harrison, P. Feiertag, M. Tomas, M. Tewdr-Johns, P. Schmitt, C. Demaziere, D. Galland. It aimed at producing a high-level collettaneous book on Metropolitan Governance and Spatial Planning (“Metropolitan Regions, Planning and Governance”, published by Springer, 2019, https://link.springer.com/book/10.1007/978-3-030-25632-6).
Since 2016	Member of the EURA Working Group on National Urban Policies; dedicated to exploring the state of the art of Urban Policy in Europe. Based on a constant dialogue and several sessions at EURA conferences, the WP has produced a book co-edited with K. Zimmermann, TU Dortmund (https://www.e-elgar.com/shop/gbp/a-modern-guide-to-national-urban-policies-in-europe-9781839109041.html, “A modern guide to national urban policies”, Edward Elgar, 2021, published opensource)
Since 2014- currently	Since 2014, Member of the Jury on <i>AESOP Excellence in Teaching Award 2014</i>, which acknowledges and encourages Excellence in Teaching. The broad aim of the prize is to stimulate the development of planning courses, prepare students for their forthcoming practice better, and educate practitioners further.
2014-2018	<i>Member of the Jury of the Small Grant Scheme</i>, promoted by EURA. Consistent with the three aims of EURA (to encourage international exchange and co-operation concerning urban research; to stimulate and encourage interdisciplinary and cross-border urban research; to contribute to urban policy debates). The scheme assists international dialogue and provides small one-off grants to facilitate multidisciplinary explorative workshops or events.
2014	Appointed Honorary Researcher at “Intelligent urbanization Co-Creation Center for High- Density Regions” in November 2014, based in Shanghai at Tongji University, by prof. Wu Siegfried, Dean of the College of Architecture and Planning, and Vice President of Tongji University, Shanghai, China.
2014- currently	Member of the Scientific and Coordination Committee of the Programme Urban Futures, PRES, Pôle de Recherche et d’Enseignement Supérieur (PRES) Université Paris-Est (UPE).
2013	Appointed blind peer reviewer by The Research Council of Norway Research Programme “Norwegian Environmental Research Toward 2015”- Environment 2015.
2012-2014	National representative of Italy in the Committee of representatives (COREP) at AESOP (Association of European Schools of Planning).
2010-2012	Vice National representative of Italy in the Committee of representatives (COREP) at AESOP (Association of European Schools of Planning).
July 2011	Responsible for EURA in the “Intermediary cities UCLG knowledge agenda”, cooperation project with the United Cities and Local government organization.

July 2001	Founding member of the "Young Academics" of Aesop (Association of European Schools. Member of the constitutive group of Ph.D. and Post-doc scholars aiming at founding a specific community of young scholars within AESOP.
Since 2010	Member of the Governing Board of EURA (European Urban Research Association).

7. TEACHING ACTIVITIES

Valeria Fedeli started her teaching activities very early at Politecnico di Milano, even before finishing her Master degree studies, as a tutor in the course of "Urban Morphological analysis" (School of Architecture and Society) of prof. R. Semino (a scholar in the group of G. Caniggia and S. Muratori), during which she developed her first interests related to the spatial and morphologic analysis at the urban and territorial scale. After her graduation, she was appointed as a tutor for the "Urbanistica III" course, prof. Giuseppe Campos Venuti.

Then, after completing her Ph. D., she was appointed professor by private contract in urban policies for several years. As a permanent researcher and assistant professor at Politecnico di Milano, she was appointed lecturer for several courses at Bachelor, Master, and Ph.D. levels. Currently, as Associate Professor, she teaches at Bachelor and Master levels and Ph.D. levels.

She had several teaching experiences in international institutions during her career, both as visiting professor and invited lecturer. Finally, she was also involved in teaching experiences for high-level civil servants in the Public Administration.

8. RESEARCH ACTIVITIES

8.1 RESEARCH PROJECTS BASED ON COMPETITIVE CALLS WITHIN EU FRAMEWORK INITIATIVES

2019-2021

ESPON EGTC MISTA Targeted Analysis Research Project (Metropolitan Industrial Spatial Strategies and Economic Sprawl), Valeria Fedeli was Project Coordinator.

Project Partners: Politecnico di Milano (lead contractor), Metropolitan Research Institute Budapest; Latitude Platform for urban research and design, Brussels; WIFO, Austrian Institute for Economic Research.

The Project aimed at developing an understanding of the current contrasted and complex relationship between the city and industrial land, manufacturing and productive activities. The project does so by producing an updated and critical understanding of how the sector has evolved over the last decades across Europe, particularly in large urban areas. The project intends to support (re-)developing a strategic relationship with manufacturing and production systems within the contemporary urban economy. In this perspective, the project aims to critically consider the complex debate on the consequences of deindustrialization and changing the urban economic base. It builds on the experiences of the seven stakeholder cities/urban areas: Berlin, Oslo, Riga, Stuttgart, Turin, Vienna and Warsaw. The project was presented in several ESPON Conferences and Metrex conferences; it was awarded an additional contract for outreach to policy makers; it will generate an ESPON Book and be presented in a dedicated ESPON seminar. Final Report and annexes are available at <https://www.espon.eu/mista>,

2020-2021

ESPON EGTC IMAGINE Targeted Analysis Research project (Spatial Imaginaries for the Milano-Bologna Urban Region), Valeria Fedeli was the Project Coordinator.

Project Partners: Politecnico di Milano (lead contractor), Globus et Locus, Sciences Po.

The project aimed at exploring the construction of new spatial regional imaginaries for the Milano Bologna urban region. It created a relevant base of spatial knowledge and identified territorial narratives and common analytical frameworks regarding the regional urbanization processes in one of the most economically and socially dynamic urban regions in Italy, the Milano-Bologna urban area. IMAGINE developed and tested new territorial narratives and governance frameworks, new visions, and imaginaries through the active engagement of institutional stakeholders and territorial actors by organizing a REGIONAL DESIGN FORUM. The project explored the potential of Integrated Territorial Initiatives as a governance tool for regionalization processes and proposed specific key lessons to be applied in context as well as general policy recommendations that could be eventually replicated in other European urban regions or other territories characterized by the presence of infrastructural corridors.

The project was presented at several ESPON Conferences, Metrex conferences. Final Report and annexes are available <https://www.espon.eu/imagine>

2020-2021

ESPON EGTC DIGISER (Digital Innovation in Governance and Public Service Provision). Valeria Fedeli was a Member of the Politecnico di Milano research Unit, coordinated by Grazia Concilio.

Project partners: Open and Agile Smart Cities (OASC), BE (lead contractor); IS-Practice BV, BE; Connected Places Catapult, UK; Politecnico di Milano, IT; Deloitte, LU; Deloitte, PT

This research project sets out to analyse the transformation of the public sector and its service provision through digital innovation by considering the diversity of the European territory in terms of socio-economic, cultural and environmental endowments in different cities. The research shall provide evidence, recommendations on how processes related to the harnessing of digital innovation in the transformation of governance and public service provision in cities across Europe can generate public value, increase openness, citizen participation and common ownership as well as bring the economic and social benefits of this transformation to all local communities. The main focus should lie on the changing nature of government structure and processes, ways of working, the role of data, standards and platforms, multilevel governance and networking in scaling up digital innovation and delivering a holistic digital public sector. The project is ongoing and the Inception report is available at

2019-2021

Horizon 2020 MESOC. Measuring the Social Dimension of Culture. Valeria Fedeli was Member of Politecnico di Milano research Unit, coordinated by Grazia Concilio.

Project partners: eConcult (ES), KEA European Affairs (BE), DASTU - Politecnico di Milano (IT), University of Barcelona - School of Economics and Business (ES), Relais Culture Europe (FR), City of Rijeka (HR), City of Athens - DAEM (GR), City of Cluj Napoca - Cluj Cultural Center (RO), Worldcunch (FR), University of Rijeka (HR).

MESOC is a Research and Innovation Action designed to propose, test and validate an innovative and original approach to measuring the societal value and impacts of culture and cultural policies and practices, related to three crossover themes of the new European Agenda for Culture: 1) Health and Wellbeing, 2) Urban and Territorial Renovation and 3) People's Engagement and Participation. The global aim is to respond to the challenge posed by the H2020 Call ("To develop new perspectives and improved methodologies for capturing the wider societal value of culture, including but also beyond its economic impact"). To do so, MESOC adapts and further develops a method for "transition based" impact assessment derived from a previous UNESCO Chair publication, building a structural model of the Societal Dimension of Culture, as defined by one of the strategic objectives of the European Agenda. The model will be tested within 10 European city pilots: Athens, Barcelona, Cluj, Gent, Issy-les-Moulineaux, Milano, Rijeka, Turku, Valencia and Warsaw.

2019-2021

Supervisor of the **MEtropolitan Governance and planning processes dealing with social jUstice and the Territorial Cohesion Policy (MEGUAL)**, funded by Politecnico di Milano, selected with the seal of Excellence under the Marie Skłodowska-Curie Actions and presented by the candidate dr. Ph.D. Sarah Chiodi. Politecnico di Milano offered to develop the research with a post-doc two-year fellowship; Valeria Fedeli has been the supervisor.

2019-2023

COST action 18214 "The Geography of New Working Spaces and the Impact on the Periphery", coordinated by Prof. I. Mariotti, Member of the working group on Governance and Policies. The project involves 160 research partners from 35 Countries from October 1, 2019 to September 30, 2023.

2015-2016

EACEA, Erasmus + program, "Thinking smart: a toolkit for the engagement of HEI in regional growth", Valeria Fedeli was Coordinator of Politecnico di Milano local unit.

Project partners: Polytechnic University of Valencia (UPV), Newcastle University (NCL), Politecnico di Milano, Lodz University (ULO), Santander Group (SGroup), Steinbeis Foundation (SIG) and Portuguese Society of Innovation (SPI).

Thinking Smart project was funded by EACEA (*the Education, Audiovisual and Culture Executive Agency*) through the Erasmus + program, Key Action 3 *Forward-Looking Cooperation Projects*, co-operation projects proposed and managed by a partnership of key stakeholders in view of identifying, testing, developing, assessing new innovative approaches in the fields of education, training and youth, that have the potential of becoming mainstreamed and giving input for improving educational and youth policies.

2013-2015

MY NEIGHBOURHOOD | MY CITY (MyN), Research project funded by the EU under the call CIP-ICT-PSP-2012-6; scientific coordinator for the Politecnico di Milano-DASTU unit prof. G. Concilio and prof. A. Balducci. Valeria Fedeli was Member of Politecnico di Milano research Unit.

The project aims at using 'smart' ICT services and citizen/neighborhood generated data to help recreate the social mechanisms which, in the past, ensured that urban neighborhoods coincided with a social system of connected and trusted communities, where the quality of life was very high, and people felt safe and happy with a true sense of belonging. As a Team member, she contributed to the project conceptual framework development, with a critical literature review related to the nature and role of neighborhood in urban theory and urban policies analysis.

2012-2013

VII FP EU PERIPHERIA. 2011, Research project funded by the EU under the VII FP ICT-Policy Support Programme. Scientific coordinator for the Politecnico di Milano, DASTU unit, prof. A.

	Balducci and G. Concilio. Valeria Fedeli was <u>Member of Politecnico di Milano research Unit.</u> The project deals with the development of the Living Lab logic from private business to the urban sphere: the production of knowledge and the role of social innovation in the urban dimension is the central research focus. As a Team Member, she has developed research activities under the Observatory Smart Cities Network. She co-authored a chapter in a book dedicated to Smart cities initiatives in Italy.
2006-2008	G-FORS, Governance for Sustainability, EU VI FP, STREP, Priority 7 - “Citizens and Governance in a knowledge-based society” Lead partner Landeshauptstadt Hannover. Scientific coordinator for the Politecnico di Milano, DASTU unit, prof. A. Balducci. Valeria Fedeli was <u>Member of Politecnico di Milano research Unit.</u> The project aimed at exploring forms of knowledge and governance in the field of policies for sustainability. In particular, it investigated three areas of policies: Particulate Matter reduction policies, Strategic Environmental Assessment, Emission Trades. As a Team Member of the Politecnico di Milano, DIAP Group, she was involved in the Work-package “Case Studies”, developing a case study related to introducing a congestion charge in Milan. She has co-edited a book chapter on the research results, besides the official research report on the case study results (available online).
2007-2008	SPARC (Spatial Planning And Regional Competitiveness) Project, INTERACT, under the V EU FP, Lead Partner Herriot Watt University, UK, funded by the ERDF (INTERACT program), DCLG and the Government of Luxembourg; Politecnico di Milano unit, coordinated by Prof. A. Balducci. Valeria Fedeli was <u>Member of Politecnico di Milano research Unit.</u> It was a transnational collaborative project aiming to provide a distance learning module to enable practitioners throughout the EU to achieve territorial cohesion and competitiveness further. She developed a distance learning teaching module related to Milan urban region context under the Governance Perspective and contributed to the theory module “Polycentrism”.

8.2 RESEARCH PROJECTS BASED ON COMPETITIVE CALLS AT THE NATIONAL AND LOCAL LEVEL

2023-2025	PRIN, Progetti di ricerca di Interesse Nazionale, “Plastic or Elastic? The spatialities of Post-Covid”, funded by the National ministry of University. <u>Valeria Fedeli was Project Coordinator and Principal investigator.</u> Project Partners: Politecnico di Milano (lead), Università di Firenze, Università di Roma III The Project investigates the effects on the production of space, generated by the Pandemic and by recovering from it, with the aim of tracing trajectories of innovation, able to support transition
2020-2021	Responsible for ACRI “YOUNG INVESTIGATOR TRAINING PROGRAM 2019” “Spatial Justice in Metropolitan areas”, founded by “Associazione di Fondazioni di Casse di Risparmio”, dedicated to supporting young scholars in the construction of qualified and international research experiences. 7 young scholars will be hosted for 2 months each by the universities that have promoted the project (7) to develop research collaboration on the topic. <u>Lead partner and coordinator</u> Project partners: Roma La Sapienza, Università di Firenze, Università di Palermo, IUAV, Politecnico di Torino, Università Federico II Napoli
2019-2021	POLISOCIAL AWARD 2019-Safari Njema, Informal mobility in Maputo of Politecnico di Milano, dedicated to exploring the role of informal mobility in the south of the world, with a specific focus on Maputo Metropolitan Area. Project developed by the Transdisciplinary Nucleum Data@ter. <u>Valeria Fedeli was a member of the POLIMI unit.</u> Project partners: Universidad Mondlane, VODACOM, Agencia Metropolitana de Transporte de Maputo, Cuebiqu, Data for Good Division+ UNhabitat+ Agenzia Italiana per la Cooperazione

2019-2021

CARIPLO FOUNDATION-Project Happy, HAPPY - Health, Accessibility, Public Transport Policies For Elderly, Member of the Team of Dipartimento di Architettura e Studi urbani, coordinated by Prof. I. Mariotti. Funded by FONDAZIONE CARIPLO

She was a member of the POLIMI unit, investigating aging processes and their consequences on the urban dynamics in Lombardy region.

2015 -2018

CARIPLO FOUNDATION-Project “Orti Metropolitani”, Member of the Team of Dipartimento di Architettura e Studi Urbani, Politecnico di Milano, coordinated by Prof A. Longo. Funded by FONDAZIONE CARIPLO.

She was a member of the POLIMI unit, investigating the role of urban agriculture in the Lombardy Region. Research Project funded by Fondazione Cariplo.

2012-2015

Prin 2010/11, “Territori post-metropolitani come forme emergenti di Spazio urbano: le sfide della sostenibilità, abitabilità e Governabilità” (tr. *“Post-Metropolitan territories as emergent forms of urban space: the challenges of sustainability, livability and governance”*).

Three years research project, funded by MIUR (Ministero dell’Istruzione, dell’Università e della Ricerca, tr. *“National Ministry of Education and University”*), coordinated at national level by prof. A. Balducci: it involves other 7 university research units in Italy (Politecnico di Torino, IUAV, Università di Firenze, Università Piemonte Orientale, Università La Sapienza di Roma, Università Federico II Napoli, Università di Palermo).

She was a member of the POLIMI unit and project manager. It aims to explore the current changes in major urban regions in Italy to develop an updated understanding of urbanization processes and a policy/governance approach able to cope with new emerging urban questions. She has coordinated the application to the national call and contributed actively to the design of the research proposal and scientific elaboration of the project. She is now in charge of the operative coordination of the research activities of the network. During the first year, she has mainly contributed to the scientific ideation, design, and implementation of the “Atlas of post-metropolitan cities”. In particular, she’s also contributing to the specific section of the Atlas dedicated to the governance dimension. She has coauthored a journal article on this and is presenting papers at different national and international conferences. The project and the web-atlas are available at the website www.postmetropoli.it.

2011-2013

PRIN 2009/2011 “Il progetto di territorio: metodi, tecniche, esperienze” (tr. *“The territorial project: methods, techniques and experiences”*).

Balducci, appointed for the development of the **“DUBAI URBAN DEVELOPMENT FRAMEWORK (2010)”**, AECOM, coordinated by prof. A. Balducci. She contributed to developing the “Vision and indicators” as a subcontractor of AECOM Middle East, charged by Dubai Urban Government for the Master Plan update.

She was involved as a member of the team in elaborating a new set of urban design and policy design benchmarking activities and selecting indicators to shape and support the Strategic Vision. She also had roles of team operative coordination and she was invited to Dubai to present the teamwork. She gave several research papers at international conferences on this work and published a comparative research article

2009-2010

Member of the Team of Dipartimento di Architettura e Pianificazione, coordinated by prof. B. Dente, in charge of **“Governare la Metropoli Milanese”** (tr. *“Governing Milan Metropolis”*) funded by Camera di Commercio di Milano (*Milan Chamber of Commerce*).

The research aimed at exploring the spaces of cooperation in the Milan urban region on four main policy issues (Housing, University, Mobility and Touristic offer). In particular, as a member of the sub-group coordinated by prof. A. Balducci, she explored the role of Social Housing Policies in the Milan Urban Region, together with G. Rabaiotti e G. Nardone, to identify the main critical issues and possible innovative projects, among which the institution of a Metropolitan Agency for Social rent. She co-authored a research report available online.

2009-2010

Member of the Team of Dipartimento di Architettura e Pianificazione, in charge of the **Study “Dieci anni di pianificazione strategica in Italia”** (tr. *“Ten Years of Strategic Planning in Italy”*). Coordinated by prof. G. Pasqui, the research project was promoted and funded by RECS (Rete delle Città Strategiche, tr. *Network of Strategic Cities*) to assess the results of a decade of strategic planning processes in Italy.

The report, co-authored together with G. Pasqui and S. Armondi, was published under the title **“Rapporto di valutazione su dieci anni di valutazione strategica in Italia”** (tr. *“An evaluation of the experiences of strategic planning in Italy in the last ten years”*) and is available online. It is based on qualitative interviews to the main protagonists of these experiences in most relevant cases of middle-size cities, promoting strategic planning in Italy in the last decade.

2005-2009

Member of the Team of Dipartimento di Architettura e Pianificazione, in charge of the **Progetto Strategico "Città di Città"**, funded by **Provincia di Milano** (tr. *"City of Cities: Strategic project for the Province of Milan"*). She coordinated operatively a large group of colleagues, under the scientific responsibility of prof. A. Balducci. The "Strategic Project Città di Città" activities were promoted and funded by the Province of Milan.

She followed the project and process since the beginning in 2005 up to its conclusion in 2009, with roles of Project and team coordinator, managing several research activities and policy design activities:

- the publication of the "Documento Strategico" (tr. *"Strategic Document"*, February 2006), the white paper opening the planning process.
- the design and implementation activities of the "Bando per Idee Progettuali e Buone Pratiche" (tr. *"Competition for design ideas and good practices"*) completed in 2007, followed by the publication of results in *"10+32+217 progetti e azioni per l'abitabilità. il Bando Città di Città"*.
- the design and publication of the *"Atlante dei progetti e delle azioni per l'abitabilità"* (tr. *"Atlas of the projects and actions for the livability promoted by the Province of Milan"*).
- the organization of the *Exhibition ViviMi*, promoted by the Provincia di Milano and Triennale di Milano together with Comune di Milano and the Camera di Commercio, in 2007.
- the publication of the Strategic Document *"Per la Città Abitabile. Scenari, visioni, idee"* (tr. *"For a livable city: Scenarios, visions, ideas"* June 2007).
- design and implementation of the second edition of the competition for ideas *"Contratti di città"* (tr. *"Cities contract"*).
- the publication of the Final Document *"Progetto Strategico Città di città. Per una Nuova cultura di governo della regione urbana milanese"* (tr. *"Strategic Project City of Cities. For a new governance culture in Milan urban region"*, January 2009), the final process evaluation document.

On the occasion of this research-consultancy activity, she had the opportunity to develop her research interest for strategic planning, mixing reflective research, theory and practices, with outreach and disseminations strategy. She co-edited several journal articles with other colleagues involved in the project, papers presented at international conferences and finally co-authored an international book dedicated to reconstructing the process and reflecting more generally on the role and nature of strategic planning in urban regions. The project was prized by the Ministry for Public Administration and innovation as an example of best practices (2008).

2008

APUR, Atelier Parisien d'Urbanisme, Contribution with a **Background Report to the Comparative Research Studies on Urban and Territorial policies in Urban regions in Europe**, for the publication of the Special issue *"Regards croisés.
